Tulsa, OK 74117

**SHORT TERM PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.333(a)**

June 30, 2017

**Carrier:** Verizon North LLC, 1717 Arch Street, Philadelphia, PA 19103

**Contact:** For additional information on these planned network changes, please contact:

Lisa Thompson  
Global Data Network Engineering  
Verizon Wireline Network Operations  
13100 Columbia Pike, Floor 5 Room 505  
Silver Spring, MD 20904  
443-862-0212

John Dunne  
Senior Manager – Global Data Network Engineering  
Verizon Wireline Network Operations  
2147 Route 27  
South Edison, NJ 08817  
732-593-4003

**Implementation Date:** On or after September 14, 2017

**Planned Network Change(s) will occur at the following locations in Pennsylvania:**

Verizon Central Office	Address	CLLI
AUBURN DC0 remote switch	Woodland & HWY 895, Auburn, PA 17922	<b>AUBNPAXARS0</b>
SELINGSGROVE DMS 100 switch	21 S. Market St., Selinsgrove, PA 17870	<b>SLGVPAXSDS0</b>

**This notice may also be viewed at** <http://www.verizon.com/about/terms-conditions/network-disclosures>

**PLEASE NOTE:**

- All references to the Auburn DC0 remote switch are associated with CLI code AUBNPAXARS0 and will not be repeated throughout this notice.
- All references to the Selinsgrove DMS100 switch are associated with CLI code SLGVPAXSDS0 and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Auburn DC0 remote switch located at Woodland & HWY 895, Auburn, PA 17922 will be retired and removed after all traffic served by this switch is migrated to the Verizon Selinsgrove DMS100 switch located at 21 S. Market St, Selinsgrove, PA 17870. Traffic to be migrated to the Selinsgrove DMS100 switch includes, but is not limited to, Inter-Lata access traffic (including Feature Group B and D traffic), Intra-Lata traffic and local traffic. Network trunks will be interconnected through the Selinsgrove DMS100 switch. Once these changes are completed, the Selinsgrove DMS100 switch for the NPA NXX code that is currently native to the Auburn DC0 remote switch will be reflected in the Local Exchange Routing Guide (LERG).

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

All carriers, including competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless, and paging carriers, will need to submit new trunk groups built to the Selinsgrove DMS100 switch or have existing trunk groups to that switch augmented. Prior to decommissioning of the Auburn DC0 remote switch on or after **September 14, 2017**, LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the native code currently served by the Auburn DC0 remote switch to reflect the Selinsgrove DMS100 switch as the new home switch.

All ASRs for the Selinsgrove DMS100 switch must be received no later than **August 24, 2017**, in order to provide sufficient time to provision those facilities prior to the migration of the traffic described above. All trunks to the Selinsgrove DMS100 switch must be in place before the retirement of the Auburn DC0 remote switch, which will occur on or after **September 14, 2017**. All ASRs for the Selinsgrove DMS100 switch must include the project code of **FDBGPAXFRS0**.
