Description of the Planned Network Change(s):

The Verizon Bloomfield 5ESS switch (BLFDNJBLDS5) located at 428 Bloomfield Avenue, Bloomfield, NJ 07003, will be retired and removed from the network after all traffic served by this switch is migrated to the alternative switch described below. All traffic currently handled by the Bloomfield 5ESS switch (BLFDNJBLDS5) will be migrated to the Verizon New Brunswick CS2K switch (NBWKNJNBPS1) located at 18-24 Paterson Street, New Brunswick NJ 08901. Traffic to be

migrated to the New Brunswick CS2K switch (NBWKNJNBPS1) includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers, will need to secure new trunk groups built to the New Brunswick CS2K switch (NBWKNJNBPS1) or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Bloomfield 5ESS switch (BLFDNJBLDS5) will be required to reposition the codes to the New Brunswick CS2K switch (NBWKNJNBPS1). Prior to decommissioning of the Bloomfield 5ESS switch (BLFDNJBLDS5) on or **after August 1, 2017**, LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the 7 (seven) native codes currently served by the Bloomfield 5ESS switch (BLFDNJBLDS5) to reflect the New Brunswick CS2K switch (NBWKNJNBPS1) as the new home switch.

All ASRs for the New Brunswick CS2K switch (NBWKNJNBPS1) must be received no later than July 6, 2017 in order to provide sufficient time to migrate the traffic described above. All ASRs for the New Brunswick CS2K switch (NBWKNJNBPS1) must carry the project code of **BLFDNJBLRP0**.
