Tulsa, OK 74117

SHORT TERM PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.333(a)

July 28, 2017

Carrier: Verizon North LLC, 1717 Arch Street, Philadelphia, PA 19103

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Engineering and System Performance
Verizon Wireline Network Operations
13100 Columbia Pike, 05 Floor, Room 505
Silver Spring, MD 20904
443-862-0212

John Dunne
Senior Manager – Global Data Network Engineering
Verizon Wireline Network Operations
2147 Route 27
South Edison, NJ 08817
732-593-4003

Implementation Date: On or after October 16, 2017

Planned Network Change(s) will occur at the following locations in Pennsylvania:

Verizon Central Office	Address	CLLI
MCKEANSBURG PA	Wine St & McKeansburg, McKeansburg, PA 17960	MSBGPAXMRS0
MANTZVILLE PA	ST HWY 443 & Mantzville, Mantzville, PA 17960	MNZVPAXMDS0
SELINSGROVE PA	21 S. Market Street, Selinsgrove, PA 17870	SLGVPAXSDS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

Please Note:

- All references to the McKeansburg, PA DC0 remote switch are associated with CLI code MSBGPAXMRS0 and will not be repeated throughout this letter.
- All references to the Mantzville, PA DC0 switch are associated with CLI code MNZVPAXMDS0 and will not be repeated throughout this letter.
- All references to the Selinsgrove, PA DMS100 switch are associated with CLI code SLGVPAXSDS0 and will not be repeated throughout this letter.

Description of the Planned Network Change(s):

McKeansburg, PA

The Verizon McKeansburg DC0 remote switch located at Wine St and McKeansburg, McKeansburg, PA 17960 will be retired and removed after all traffic served by this switch is migrated to the Verizon Selinsgrove DMS100 switch located at 21 S. Market St, Selinsgrove, PA 17870. Traffic to be migrated to the Selinsgrove DMS100 switch includes, but is not limited to, Inter-Lata access traffic (including Feature Group B and D traffic), Intra-Lata traffic and local traffic. Network trunks will be interconnected through the Selinsgrove DMS100 switch. Once these changes are completed, the Selinsgrove DMS100 switch for the NPA NXX code that is currently native to the McKeansburg DC0 remote switch will be reflected in the Local Exchange Routing Guide (LERG).

Mantzville, PA

The Verizon Mantzville DC0 switch located at ST HWY & Mantzville Rd, Mantzville, PA 17960 will be retired and removed after all traffic served by this switch is migrated to the Verizon Selinsgrove DMS100 switch located at 21 S. Market St, Selinsgrove, PA 17870. Traffic to be migrated to the Selinsgrove DMS100 switch includes, but is not limited to, Inter-Lata access traffic (including Feature Group B and D traffic), Intra-Lata traffic and local traffic. Network trunks will be interconnected through the Selinsgrove DMS100 switch. Once these changes are completed, the Selinsgrove DMS100 switch for the NPA NXX code that is currently native to the Mantzville DC0 switch will be reflected in the LERG.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

McKeansburg, PA

All carriers, including competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless, and paging carriers, will need to submit new trunk groups built to the Selinsgrove DMS100 switch or have existing trunk groups to that switch augmented. Prior to decommissioning of the McKeansburg DC0 remote switch on or after **October 16, 2017**, LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the native code currently served by the McKeansburg DC0 remote switch to reflect the Selinsgrove DMS100 switch as the new home switch.

All ASRs for the Selinsgrove DMS100 switch must be received no later than **September 28, 2017**, in order to provide sufficient time to provision those facilities prior to the migration of the traffic described above. All trunks to the Selinsgrove DMS100 switch must be in place before the retirement of the McKeansburg DC0 remote switch, which will occur on or after **October 16, 2017**. All ASRs for the Selinsgrove DMS100 switch must include the project code of **MNZVPAXMRS0**.

Mantzville, PA

All carriers, including competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless, and paging carriers, will need to submit new trunk groups built to the Selinsgrove DMS100 switch or have existing trunk groups to that switch augmented. Prior to decommissioning of the Mantzville DC0 switch on or after **October 16, 2017**, LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the native code currently served by the Mantzville DC0 remote switch to reflect the Selinsgrove DMS100 switch as the new home switch.

All ASRs for the Selinsgrove DMS100 switch must be received no later than **September 28, 2017**, in order to provide sufficient time to provision those facilities prior to the migration of the traffic described above. All trunks to the Selinsgrove DMS100 switch must be in place before the retirement of the Mantzville DC0 switch, which will occur on or after **October 16, 2017**. All ASRs for the Selinsgrove DMS100 switch must include the project code of **MNZVPAXMRS0**.
