Region Section Mgr. R.O.W. and Municipal Affairs
1909 U.S. Hwy 301 N.
Tampa, FL. 33619
813-740-1231 office
941-504-9754 cell

Implementation Date: On or after November 1, 2012

Location:

Planned Network Change(s) will occur in an area served by Verizon's Brandon, Florida central office, north of East Wheeler Road, between S. Gallagher Lane and S. Kingsway Road.

Description of the Planned Network Change(s):

Verizon intends to retire approximately 630 linear feet of copper distribution and loop facilities north of East Wheeler Road, between S. Gallagher Lane and S. Kingsway Road, in the Brandon, Florida central office. Upon completion, Verizon will provide services available over its fiber optic network infrastructure.

Description of reasonably foreseeable impact(s) of the planned change(s):

None. A recent review of Verizon's records indicates that no carriers are currently served on copper facilities in the area proposed for copper retirement/removal. After the retirement of copper facilities, Verizon will: (1) no longer offer UNEs or other services over copper facilities; and (2) cease maintaining the copper facilities. However, to the extent required by applicable agreements and federal law, Verizon will offer to requesting carriers a 64 Kbps voice grade channel over fiber loops that have been deployed where copper loops were retired.
