Verizon
600 Hidden Ridge
Irving, TX 75015-2092

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

August 26, 2013

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Harvey Salzberg
MNE NYS TCM/SW-TAND/VOIP
Verizon Services Operations
140 West Street, 11th Floor
New York, NY USA 10007
212-766-5821

Scott Walker
Manager – MNE Network Engineering
Verizon Services Operations
13100 Columbia Pike, 02 Floor Room A24
Silver Spring, MD USA 20904
301-282-5514

Implementation Date: On or after March 1, 2014

Planned Network Change(s) Will Occur at the Following Location(s):

Location	Verizon Central Office (or Other) CLLI Code
104 Broad St., Manhattan, New York, NY 10004 (Broad Street DMS100 switch)	NYCMNYBSDS3
375 Pearl St., Manhattan, New York, NY 10038 (Pearl Street CS2K switch)	NYCMNYPSPS0

Description of the Planned Network Change(s):

The Verizon Broad Street DMS100 switch (NYCMNYBSDS3), located at 104 Broad St., Manhattan, New York, NY 10004, will be decommissioned and replaced by the Verizon Pearl Street CS2K switch (NYCMNYPSPS0), located at 375 Pearl Street, Manhattan, New York, NY 10038. After all traffic served by the Broad Street DMS100 switch (NYCMNYBSDS3) is migrated to the Pearl Street CS2K switch (NYCMNYPSPS0), the Broad Street DMS100 switch (NYCMNYBSDS3) will be decommissioned (retired). Network trunks will be interconnected through the Pearl Street CS2K switch (NYCMNYPSPS0). Once these changes are completed, the Pearl Street CS2K switch (NYCMNYPSPS0) will be home to all 12 (twelve) NPA NXX codes that are currently native to the Broad Street DMS100 switch (NYCMNYBSDS3), which will be reflected in the LERG. Traffic to be migrated to the Pearl Street CS2K switch (NYCMNYPSPS0) includes, but is not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), and Intra-LATA and local traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

All ASRs for the Pearl Street CS2K switch (NYCMNYPSPS0) for trunk interconnection must include the project code of NYCMNYBSDS3. All carriers (e.g., CLEC, Wireless or IEC) should submit direct end office trunk (DEOT) orders no later than December 2, 2013. These DEOT interconnections will support traffic migration for the Broad Street DMS100 switch (NYCMNYBSDS3), prior to its eventual decommissioning. Prior to decommission of the Broad Street DMS100 switch (NYCMNYBSDS3) (on or after March 1, 2014), LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the 12 (twelve) native codes currently served by the Broad Street DMS100 switch (NYCMNYBSDS3) to reflect the Pearl Street CS2K switch (NYCMNYPSPS0) as the new home switch.
