Irving, TX 75038-3897

**Short Term Public Notice of Network Change Under Rule 51.333(a)
Verizon Internet Protocol Services
Update to Previous Disclosure Dated 3/29/2005**

May 6, 2005

Type of Change:

This disclosure adds additional functionality to the interfaces described in Verizon's March 29, 2005 Packet Over SONET (POS) disclosure. The update provides additional protocols that will facilitate Private Line access to Verizon IP-VPN Service.

Technical References:

The following technical references and subsequent versions shall apply:

Point-to-Point (PPP)

- RFC 1990, *The PPP Multilink Protocol (MP)*

To obtain IETF documents, visit the following web site:

<http://ietf.org/home.html>

Date changes are to occur:

Verizon plans to offer the changes described for the service described in this disclosure beginning on June 13, 2005. To confirm availability at your location, contact the Product Manager listed below.

Location changes are to occur:

The interface will be offered in locations across Verizon footprint where suitable facilities are available.

Reasonable foreseeable impact of change:

These additional interfaces are being made available for carriers who are interested in connecting to the Verizon IP-VPN Service through Private Line access. Carriers must meet the interface requirements in order to take advantage of this service. All other existing interfaces will remain available.
