Description of the Planned Network Change(s):

The Verizon Lynnfield switch (LYFDMACARS1) located at 34 Carter Road, Lynnfield, Massachusetts (which is a remote switch off of the host switch West Peabody (WBPDMAPIDS0) located at 62 Pine Street, West Peabody, Massachusetts), will be retired and removed from the Verizon network after all traffic served by this switch is migrated to the Newton softswitch (NWTNMAWAPS0), located at 787 Washington Street, Newton, MA, including, but not limited to, Inter-LATA (ACCESS/FG-B-D), Wireless, and Paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

All carriers including CLECs, IECs, and wireless and paging carriers, will need to secure new trunk groups to the Newton softswitch or have existing trunk groups to that switch augmented.

All ASRs for the Newton softswitch must be received no later than October 1, 2014, in order to provide sufficient time to provision those facilities prior to the migration of the traffic described above. All trunks to the Newton softswitch must be in place before the retirement of the Lynnfield switch which will occur on or after December 1, 2014. All ASRs for the softswitch must carry the project code of NWTNMAWAPS0.
