Scott Walker
Manager – MNE Network Engineering
Verizon Services Operations
13100 Columbia Pike, 02 Floor Room A24
Silver Spring, MD USA 20904
301-282-5514

Implementation Date: On or after July 12, 2014

Planned Network Change(s) Will Occur at the Following Location(s):

Location	Verizon Central Office (or Other) CLLI Code
1095 Avenue of the Americas, Manhattan, New York, NY 10036 (42 nd Street DMS100 switch)	NYCMNY42DS0
375 Pearl St., Manhattan, New York, NY 10038 (Pearl Street CS2K switch)	NYCMNYPSPS0

Description of the Planned Network Change(s):

The Verizon 42nd Street DMS100 switch (NYCMNY42DS0), located at 1095 Avenue of the Americas, Manhattan, New York, NY 10036, will be decommissioned and replaced by the Verizon Pearl Street CS2K switch (NYCMNYPSPS0), located at 375 Pearl Street, Manhattan, New York, NY 10038. After all traffic served by the 42nd Street DMS100 switch (NYCMNY42DS0) is migrated to the Pearl Street CS2K switch (NYCMNYPSPS0), the 42nd Street DMS100 switch (NYCMNY42DS0) will be decommissioned (retired). Network trunks will be interconnected through the Pearl Street CS2K switch (NYCMNYPSPS0). Once these changes are completed, the Pearl Street CS2K switch (NYCMNYPSPS0) will be home to all 25 (twenty-five) NPA NXX codes that are currently native to the 42nd Street DMS100 switch (NYCMNY42DS0), which will be reflected in the LERG. Traffic to be migrated to the Pearl Street CS2K switch (NYCMNYPSPS0) includes, but is not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), Intra-LATA traffic, and local traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

All ASRs for the Pearl Street CS2K switch (NYCMNYPSPS0) for trunk interconnection must include the project code of **NYCMNY42DS0**. All carriers (e.g., CLEC, Wireless or IEC) should submit direct end office trunk (DEOT) orders no later than May 5, 2014. These DEOT interconnections will support traffic migration for the 42nd Street DMS100 switch (NYCMNY42DS0), prior to its eventual decommissioning. Prior to decommissioning of the 42nd Street DMS100 switch (NYCMNY42DS0) (on or after July 12, 2014), LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the 25 (twenty-five) native codes currently served by the 42nd Street DMS100 switch (NYCMNY42DS0) to reflect the Pearl Street CS2K switch (NYCMNYPSPS0) as the new home switch.
