SHORT TERM PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.333(a)

February 14, 2019

Carrier: Verizon New England Inc., 6 Bowdoin Square, 9th Floor, Boston, MA 02114

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

John Dunne
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
2147 Route 27, 04 Floor Room N/A, Edison, NJ USA 08817
732-593-4003

Implementation Date: On or after June 12, 2019

Planned Network Change(s) will occur at the following location(s) in Rhode Island:

Verizon Central Office	Address	CLLI
RIVERSIDE DMS100 Switch	60 Somerset Ave., Riverside, RI 02915	RVSDRISODS0
PROVIDENCE Packet End Office (PEO) Switch	234 Washington St., Providence, RI 02903	PRVDRIWAPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Riverside, RI DMS100 switch are associated with CLI code RVSDRISODS0 and will not be repeated throughout this notice.
- All references to the Providence, RI Packet End Office (PEO) switch are associated with CLI code PRVDRIWAPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Riverside, RI DMS100 switch, located at 60 Somerset Ave., Riverside, RI 02915, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Providence, RI PEO switch located at 234 Washington St., Providence, RI 02903. All traffic to be migrated includes, but is not limited to Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Providence, RI PEO switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Riverside, RI DMS100 switch will be required to reposition the codes to the Providence, RI PEO switch.

All ASRs for the Providence, RI PEO switch must be received no later than May 1, 2019 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Riverside, RI DMS100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Riverside, RI DMS100 switch (**on or after June 12, 2019**). This will serve to guide interconnect re-routes of traffic for the three (3) native codes currently served by the Riverside, RI DMS100 switch to reflect the Providence, RI PEO switch as the new home switch. All ASRs for the Providence, RI PEO switch must carry the project code of **RVSDRISODS0**.
