

6929 N. Lakewood Avenue Tulsa, OK 74117

## PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

March 27, 2019

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

**Contact:** For additional information on these planned network changes, please contact:

Harvey Salzberg Global Engineering and Operations Verizon Wireline Network Operations 140 West Street, 5<sup>th</sup> Floor New York, NY 10007 212-519-4852

John Dunne Manager – Global Network Engineering and Operations Verizon Wireline Network Operations 999 West Main St., 2<sup>nd</sup> Floor Freehold, NJ 07728 732-683-5126

**Implementation Date:** On or after October 1, 2019

Planned Network Change(s) will occur at the following locations in New York:

Verizon Central Office	Address	CLLI
South Staten Island DMS Switch	5180 Amboy Road, Staten Island, NY 10312	NYCRNYSSDS0
Williamsburg C20 Switch	55 Meserole Street, Brooklyn, NY 11206	NYCKNYWMPS1

This notice may also be viewed at <a href="http://www.verizon.com/about/terms-conditions/network-disclosures">http://www.verizon.com/about/terms-conditions/network-disclosures</a>

## PLEASE NOTE:

• All references to the South Staten Island NY DMS switch are associated with CLLI code NYCRNYSSDS0 and will not be repeated throughout this notice.

• All references to the Williamsburg NY C20 switch are associated with CLLI code NYCKNYWMPS1 and will not be repeated throughout this notice.

## **Description of the Planned Network Change(s):**

The Verizon South Staten Island DMS switch, located at 5180 Amboy Road, Staten Island, NY 10312, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Williamsburg C20 switch located at 55 Meserole Street, Brooklyn, NY 11206. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

## **Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Williamsburg C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the South Staten Island DMS switch will be required to reposition the codes to the Williamsburg C20 switch.

All ASRs for the Williamsburg C20 switch must be received no later than August 1, 2019 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the South Staten Island DMS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the South Staten Island DMS switch (on or after October 1, 2019). This will serve to guide interconnect re-routes of traffic for the ten (10) native codes currently served by the South Staten Island DMS switch to reflect the Williamsburg C20 switch as the new home switch. All ASRs for the Williamsburg C20 switch must carry the project code of NYCRNYSSDS0.
