

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

July 14, 2021

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Harvey Salzberg
Global Engineering and Operations
Verizon Wireline Network Operations
140 West Street, 5th Floor
New York, NY 10007
212-519-4852

John Dunne
Manager – Global Network Engineering and Operations
Verizon Wireline Network Operations
999 West Main St., 2nd Floor
Freehold, NJ 07728
732-683-5126

Implementation Date: On or after June 1, 2022

Planned Network Change(s) will occur at the following locations in New York:

Verizon Central Office	Address	CLLI
New Rochelle NY 5E Switch	342 Huguenot Street New Rochelle, NY 10801	NWRCNYNRDS0
Pleasantville NY CS2k Switch	465 Marble Avenue Pleasantville, NY 10570	PSVLNYPVPSA

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the New Rochelle NY 5E switch are associated with CLLI code NWRCNYNRDS0 and will not be repeated throughout this notice.
- All references to the Pleasantville NY CS2k switch are associated with CLLI code PSVLNYPVPSA and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon New Rochelle NY 5E switch, located at 342 Huguenot Street, New Rochelle, NY 10801, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Pleasantville NY CS2k switch, located at 465 Marble Avenue, Pleasantville, NY 10570. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Pleasantville NY CS2k switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the New Rochelle NY 5E switch will be required to reposition the codes to the Pleasantville NY CS2k switch.

All ASRs for the Pleasantville NY CS2k switch must be received no later than March 1, 2022 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the New Rochelle NY 5E switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the New Rochelle NY 5E switch (**on or after June 1, 2022**). This will serve to guide interconnect re-routes of traffic for the nine (9) native codes currently served by the New Rochelle NY 5E switch to reflect the Pleasantville NY CS2k switch as the new home switch. All ASRs for the Pleasantville NY CS2k switch must carry the project code of NWRCNYNRDS0.
