PLEASE NOTE:

- All references to the Dumont NJ 5ESS switch are associated with CLI code DUMTNJDMDS5 and will not be repeated throughout this notice.

- All references to the Rochelle Park NJ CS2K switch are associated with CLLI code RCPKNJ01PS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Dumont NJ 5ESS switch, located at 57 Washington Avenue, Dumont, NJ 07628, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Rochelle Park NJ CS2K switch, located at 65 West Passaic Street, Rochelle Park, NJ 07662. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Rochelle Park NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Dumont NJ 5ESS switch will be required to reposition the codes to the Rochelle Park NJ CS2K switch.

All ASRs for the Rochelle Park NJ CS2K switch must be received no later than June 27, 2023 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Dumont NJ 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted, prior to decommissioning of the Dumont NJ 5ESS switch (**on or after August 1, 2023**). This will serve to guide interconnect re-routes of traffic for the six (6) native codes currently served by the Dumont NJ 5ESS switch to reflect the Rochelle Park NJ CS2K switch as the new home switch. All ASRs for the Rochelle Park NJ CS2K switch must carry the project code of **DUMTNJDMDS5**.
