Tulsa, OK 74117

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

July 12, 2023

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

Quadre Washington
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
320 Saint Paul Pl
Baltimore, MD 21202
410-736-4261

Implementation Date: On or after March 1, 2024.

Planned Network Change(s) will occur at the following location(s) in New York:

Verizon Central Office	Address	CLLI
Central Bridge NY DMS100 Remote Switch	130 Chase Drive Central Bridge, NY 12092	CNBRNYCDRS0
Central Bridge NY T1000 Remote Packet Switch	130 Chase Drive Central Bridge, NY 12092	CNBRNYCDRP0
Albany NY Packet End Office (PEO) Switch	158 State Street Albany, NY 12207	ALBYNYSSPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Central Bridge NY DMS100 remote switch are associated with CLI code CNBRNYCDRS0 and will not be repeated throughout this notice.
- All references to the Central Bridge NY T1000 remote packet switch are associated with CNBRNYCDRP0 and will not be repeated throughout this notice.
- All references to the Albany NY Packet End Office (PEO) switch are associated with CLI code ALBYNYSSPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Central Bridge NY DMS100 remote switch, located at 130 Chase Drive, Central Bridge, NY 12092, will be retired and removed from the network after all traffic served by this switch is migrated to the Central Bridge NY T1000 remote packet switch, located at 130 Chase Drive, Central Bridge, NY 12092. All traffic to be migrated to the Central Bridge T1000 remote packet switch will be homed to the Albany NY PEO switch. Traffic includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Albany NY PEO switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Central Bridge NY DMS100 remote switch will be required to reposition the codes to the Albany NY PEO switch.

All ASRs for the Albany NY PEO switch must be received no later than January 15, 2024 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Central Bridge NY DMS100 remote switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Central Bridge NY DMS100 remote switch (**on or after March 1, 2024**). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Central Bridge NY DMS100 remote switch to reflect the Central Bridge T1000 remote packet switch and the Albany NY PEO switch as the new home switch. All ASRs for the Albany NY PEO switch must carry the project code of CNBRNYCDRS0.
