

6929 N. Lakewood Avenue
Tulsa, OK 74117

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

November 15, 2023

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

Quadre Washington
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
320 Saint Paul Pl
Baltimore, MD 21202
410-736-4261

Implementation Date: On or after March 1, 2024.

Planned Network Change(s) will occur at the following location(s) in New York:

Verizon Central Office	Address	CLLI
Sharon Springs, NY DMS100 Remote Switch	121 Beechwood Road, Sharon Springs, NY 13459	SHSPNYQSR0
Sharon Springs, NY T1000 Remote Packet Switch	121 Beechwood Road, Sharon Springs, NY 13459	SHSPNYQSRP0
Albany, NY Packet End Office Switch	158 State Street, Albany, NY 12207	ALBYNYSSPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Sharon Springs, NY DMS100 remote switch are associated with CLI code SHSPNYQSRS0 and will not be repeated throughout this notice.
- All references to the Sharon Springs, NY T1000 remote packet switch are associated with SHSPNYQSRP0 and will not be repeated throughout this notice.
- All references to the Albany, NY Packet End Office (PEO) switch are associated with CLI code ALBYNYSSPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Sharon Springs, NY DMS100 remote switch, located at 121 Beechwood Road, Sharon Springs, NY 13459, will be retired and removed from the network after all traffic served by this switch is migrated to the Sharon Springs, NY T1000 remote packet switch, located at 121 Beechwood Road, Sharon Springs, NY 13459. All traffic to be migrated to the Sharon Springs T1000 remote packet switch will be homed to the Albany, NY PEO switch. Traffic includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Albany, NY PEO switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Sharon Springs, NY DMS100 remote switch will be required to reposition the codes to the Albany, NY PEO switch.

All ASRs for the Albany, NY PEO switch must be received no later than January 15, 2024 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Sharon Springs, NY DMS100 remote switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Sharon Springs, NY DMS100 remote switch (**on or after March 1, 2024**). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Sharon Springs, NY DMS100 remote switch to reflect the Sharon Springs, NY T1000 remote packet switch and the Albany, NY PEO switch as the new home switch. All ASRs for the Albany, NY PEO switch must carry the project code of SHSPNYQSRS0.
