

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

February 29, 2024

Carrier: Verizon Pennsylvania LLC, 900 Race Street, Philadelphia, PA 19107

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
410-375-9777

Quadre Washington
Associate Director – Global Data Network Engineering
Verizon Wireline Network Operations
320 Saint Paul Pl.
Baltimore Md, 21202
410 259 9829

Implementation Date: On or after August 29, 2024

Planned Network Change(s) will occur at the following locations in Pennsylvania:

Verizon Central Office	Address	CLLI
LORDS VALLEY PA DMS10	542 Forest Drive Lords Valley, PA 18428	LDVYPALVDS0
SCRANTON PA DMS100	121 Adams Avenue Scranton, PA 18503	SCTNPASCDS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>.

PLEASE NOTE:

- All references to the Lords Valley PA DMS10 switch are associated with CLI code LDVYPALVDS0 and will not be repeated throughout this notice.
- All references to the Scranton PA DMS100 switch are associated with CLI code SCTNPASCDS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Lords Valley PA DMS10 switch, located at 542 Forest Drive, Lords Valley, PA 18428, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Scranton PA DMS100 switch, located at 121 Adams Avenue, Scranton, PA 18503. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Scranton PA DMS100 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Lords Valley PA DMS10 switch will be required to reposition the codes to the Scranton PA DMS100 switch.

All ASRs for the Scranton PA DMS100 switch must be received no later than June 13, 2024 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Lords Valley PA DMS10 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Lords Valley PA DMS10 switch (**on or after August 29, 2024**). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Lords Valley PA DMS10 switch to reflect the Scranton PA DMS100 switch as the new home switch. All ASRs for the Scranton PA DMS100 switch must carry the project code of **LDVYPALVDS0**.
