PLEASE NOTE:

Description of the Planned Network Change(s):

The Verizon Fair Lawn NJ 5ESS switch, located at 27-02 Fair Lawn Avenue, Fair Lawn, NJ 07410, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Rochelle Park NJ CS2K switch, located at 65 West Passaic Street, Rochelle Park, NJ 07662. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Rochelle Park NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Fair Lawn NJ switch will be required to reposition the codes to the Rochelle Park NJ CS2K switch.

All ASRs for the Rochelle Park NJ CS2K switch must be received no later than August 21, 2024, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Fair Lawn NJ 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Fair Lawn NJ 5ESS switch (**on or after October 1, 2024**). This will serve to guide interconnect re-routes of traffic for the seven (7) native codes currently served by the Fair Lawn NJ 5ESS switch to reflect the Rochelle Park NJ CS2K switch as the new home switch. All ASRs for the Rochelle Park NJ CS2K switch must carry the project code of **FRLNNJFLDS5**.
