PLEASE NOTE:

- All references to the Ronkonkoma NY 5E switch are associated with CLLI code RNKNNYRNDS0 and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Ronkonkoma NY 5E switch, located at 100 Potion Road, Ronkonkoma, NY 11779, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Deerpark NY CS2k switch, located at 85 W. Second Street, Deer Park, NY 11729. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Deerpark NY CS2k switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Ronkonkoma NY 5E switch will be required to reposition the codes to the Deerpark NY CS2k switch.

All ASRs for the Deerpark NY CS2k switch must be received no later than May 1, 2025, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Ronkonkoma NY 5E switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Ronkonkoma NY 5E switch (**on or after July 2, 2025**). This will serve to guide interconnect re-routes of traffic for the ten (10) native codes currently served by the Ronkonkoma NY 5E switch to reflect the Deerpark NY CS2k switch as the new home switch.
