

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

January 20, 2021

Carrier: Verizon New England Inc., 6 Bowdoin Square, 9th Floor, Boston, MA 02114

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

John Dunne
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
999 W Main St., 04 Floor
Freehold, NJ 07728
732-683-5126

Implementation Date: On or after November 1, 2021

Planned Network Change(s) will occur at the following location(s) in Rhode Island:

Verizon Central Office	Address	CLLI
Cranston RI DMS100 Switch	56 Phenix Avenue Cranston, RI 02920	CNTNRIPHDS1
Providence RI Packet End Office (PEO) Switch	234 Washington Street Providence, RI 02903	PRVDRIWAPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Cranston RI DMS100 switch are associated with CLLI code CNTNRIPHDS1 and will not be repeated throughout this notice.
- All references to the Providence RI PEO switch are associated with CLLI code PRVDRIWAPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Cranston RI DMS100 switch, located at 56 Phenix Avenue, Cranston, RI 02920, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Providence RI PEO switch, located at 234 Washington Street, Providence, RI 02903. All traffic to be migrated includes, but is not limited to Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Providence RI PEO switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Cranston RI DMS100 switch will be required to reposition the codes to the Providence RI PEO switch.

All ASRs for the Providence RI PEO switch must be received no later than September 15, 2021 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Cranston RI DMS100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Cranston RI DMS100 switch (**on or after November 1, 2021**). This will serve to guide interconnect re-routes of traffic for the eight (8) native codes currently served by the Cranston RI DMS100 switch to reflect the Providence RI PEO switch as the new home switch. All ASRs for the Providence RI PEO switch must carry the project code of **CNTNRIPHDS1**.
