

Verizon 600 Hidden Ridge Irving, TX 75015-2092

SHORT TERM PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.333(a)

December 14, 2015

Carrier: Verizon North LLC, 1717 Arch Street, Philadelphia, PA 19103

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson Global Engineering and System Performance Verizon Wireline Network Operations 13100 Columbia Pike, 05 Floor Room 505 Silver Spring, MD USA 20904 443-862-0212

Andrea Karcher Manager – Global Engineering and System Performance Verizon Wireline Network Operations 99 Shawan Rd & York Rd, 05 Floor Room 5w, Cockeysville, MD USA 21030 410-856-2512

Implementation Date: On or after February 27, 2016

Planned Network Change(s) Will Occur at the Following Location(s):

Location	Verizon Central Office (Or Other) CLLI Code
Robert St & Foster St	
Nanty Glo, PA 15943	
(Nanty Glo GTD-5 switch)	NNGOPAXNDS0
421 Locust St,	
Johnstown, PA 15901	
(Johnstown GTD-5 switch)	JHTWPAXJDS0

Description of the Planned Network Change(s):

The Verizon Nanty Glo Class 5 (GTD-5) switch (NNGOPAXNDS0), located at the corner of Roberts St and Foster St, Nanty Glo, PA 15943, will be decommissioned and all of its network traffic will be migrated to the Johnstown Class 5 (GTD-5) switch (JHTWPAXJDS0), located at 421 Locust ST, Johnstown, PA 15901. After all traffic served by the Nanty Glo GTD5 switch (NNGOPAXNDS0) is migrated to the Johnstown GTD5 switch (JHTWPAXJDS0), the Nanty Glo GTD5 switch (NNGOPAXNDS0) will be decommissioned (retired). Network trunks will be interconnected through the Johnstown GTD5 switch (JHTWPAXJDS0). Once these changes are completed, Johnstown GTD5 switch (JHTWPAXJDS0) will be home to the 814 749 code that is currently native to the Nanty Glo GTD5 switch (NNGOPAXNDS0), which will be reflected in the LERG. Traffic to be migrated to the Johnstown GTD5 switch (JHTWPAXJDS0) includes, but is not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), Intra-LATA traffic, and local traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

All ASRs for the Johnstown GTD5 switch (JHTWPAXJDS0) for trunk interconnection must include the project code of NNGOPAXNDS0. All carriers (e.g., CLEC, Wireless or IEC) should submit direct end office trunk (DEOT) orders no later than **February 4 2016.** These DEOT interconnections will support traffic migration for the Nanty Glo GTD5 switch (NNGOPAXNDS0), prior to its eventual decommissioning. Prior to decommissioning of the Nanty Glo GTD5 switch (NNGOPAXNDS0) (on or **after February 27, 2016**), LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the 814 749 native code currently served by the Nanty Glo GTD5 switch (NNGOPAXNDS0) to reflect the Johnstown GTD5 switch (JHTWPAXJDS0) as the new home switch.
