

Talk to the World International Plan for Business Digital Voice

I) General Description

Talk To The World International Plan for Business Digital Voice is offered by Verizon Long Distance LLC (“Verizon,” “we,” “our,” and us”) to new and existing Verizon Business Digital Voice customers for outbound international calls dialed using Business Digital Voice. Talk To The World International Plan for Business Digital Voice is subject to and part of the Business Digital Voice Terms of Service.

Your subscription to Talk to the World International Plan for Business Digital Voice will be terminated if you terminate your subscription to Business Digital Voice.

We may revise the terms and conditions stated in this Talk to the World International Plan for Business Digital Voice, including without limitation the per minute rates, from time-to-time and will provide notice of any such changes to you as set forth in the Business Digital Voice Terms of Service.

II) Rates and Charges

Talk to the World International Plan for Business Digital Voice offers flat-rate pricing, available 24 hours a day, seven days a week. The monthly recurring charge for Talk To The World International Plan for Business Digital Voice is \$5.95. The Monthly Recurring Charge (MRC) is billed each month in advance. If you add this plan during a billing cycle, you will be billed a prorated MRC based on the number of days left in the billing cycle. If you cancel your subscription to Talk to the World International Plan for Business Digital Voice, the MRC for the last month will be prorated base on the date of disconnection.

Each call is measured and billed individually in one minute increments after an initial minimum call duration of one minute. Any partial minute is rounded up to a full minute. Fractional charges are rounded up to the next cent. The per minute rates are set forth in Part IV, below.

In addition, a Premium Termination Surcharge applies to international calls that terminate to a location designated as a premium service by a foreign telecommunications company. Premium services may include calls to wireless telephones, pagers, personal computers, personal digital assistants (PDAs), devices that use satellite technology, and calls to chat lines or other information services, such as 900-type numbers. For calls to Mexico, the surcharge applies only to calls terminating to a wireless phone. The surcharge is \$0.20 and locations to which the surcharge applies are identified with an “X” in the column titled PTS in Part IV, below.

III) Taxes and Fees

All applicable taxes (e.g. excise taxes, sales taxes, municipal utilities taxes) are listed as a separate line item on your bill and are not included in the quoted rates and charges set forth in this document. To the extent that a municipality, other political subdivision or agency of government imposes upon and collects from Verizon a gross receipts tax, occupation tax, license tax, permit fee, franchise fee, or regulatory fee, such taxes and fees shall, insofar as practicable and allowed by law, be billed pro rata to customers receiving service from Verizon within the territorial limits of such municipality, other political subdivision or agency of government.

We may adjust our rates and charges or impose additional rates and charges on customers in order to recover amounts we are required by governmental or quasi-governmental authorities to collect or pay to others in support of statutory or regulatory programs. Examples of such programs include, but are not limited to, the Universal Service Fund (USF). Imposition, billing and collection of such rates and charges are subject to billing and other system changes by Verizon.

The Universal Service Fund Fee allows us to recover contributions paid to support the Universal Service Fund. Telecommunications services that we provide are subject to an undiscountable monthly Universal Service Fund Fee, payable by the customer. The gross amounts (exclusive of taxes) attributable to interstate and international services that we bill to the customer will be multiplied by 14.9%. This percentage is subject to period adjustment by us.
