

Up To Speed

Monday, January 13, 2025

Hey, V Team, it's Kyle here. Welcome to Up to Speed. You're going to learn about what's going on around the company.

Hey V Team, 2025 is here and with it our business unit kickoffs are in full swing. In fact, one is just about to take place in just a few minutes.

Give you a look here at what it looks like. I mean, doesn't this look neat?

Be sure to join us on Friday, January 24th for our big celebration. Plus, we'll also be sharing our 4Q 24 earnings.

We have so much to cover, including how we closed out last year and what we need to deliver in 2025 to keep our momentum going.

By now, I'm sure you've heard about the severe weather conditions affecting various parts of the country, including the multiple wildfires burning through Southern California, leaving behind massive devastation.

Last week, the Verizon Foundation donated \$1 million to provide much needed aid and resources to support firefighters and their communities.

As always, we're doing our part to help folks affected by these natural disasters. And we've got a link in today's story with all of those details.

Okay, this next story is huge for you. But also be sure to tell your friends and family.

Right now is the best time to get Verizon Home Internet with no unexpected price hikes or hidden fees, plus a five year price guarantee on plans starting at \$35 a month.

Now, as for phones for a limited time, if you switch to Verizon, we'll pay off your old phone up to \$800 and you can get a new 5G smartphone on us.

Switching gears now to some important benefits. V Team, if you haven't heard, we recently launched Maven Clinic for US Management Employees.

Maven Clinic is a digital health care platform that provides free, personalized, 24/7 virtual support, care and guidance for family building, pregnancy, parenting, menopause and mid-life journey.

We'll have a link in today's story for more information and to sign up.

And speaking of health, be sure to check out V Teamer Verretta Fields experience with 2nd.MD, a benefit offered through Verizon that allows you to get a second opinion from a doctor for any health condition you may be struggling with.

A link to a video with her journey will be in today's story.

And today V Team, as we mentioned last week on Up to Speed, be sure to check your email for your chance to get your hands on a Verizon FanFest ticket in a city near you.

All right, before we go, we want to remind you that Monday, January 20th, is Martin Luther King Jr. Day.

Join BOLD and the United Way for a Families and Finance Simulation.

You'll actually step into the shoes of a low-income family and navigate tough decisions that many folks face daily.

You can learn more about this event and explore other opportunities to celebrate the life and legacy of Dr. King in today's story.

Okay Team, that's it for today. Until next time, you're up to speed.
