

February 8, 2022

Audience: CLEC, ISP, IXC, Resellers, Wireless

Industry Letter

Subject: Varysburg, NY DMS10 Switch Retirement

PLEASE NOTE:

- All references to the Varysburg NY DMS10 switch are associated with CLLI code VRBGNYVBDS0 and will not be repeated throughout this letter.
- All references to the Buffalo NY Packet End Office (PEO) switch are associated with CLLI code BFLONYFRPS0 and will not be repeated throughout this letter.

As set out in the Verizon New York Inc. “Short Term Public Notice Under Rule 51.333(a)” dated February 8, 2022, on or after August 1, 2022, the Varysburg NY DMS10 switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Code (NXX) in Numbering Plan Area (NPA) 585 currently residing in the Varysburg NY DMS10 switch (see list in Table B below) will be moved to the Buffalo NY PEO switch (see details in Table A below).

The native NPA NXX belonging to the Varysburg NY DMS10 switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Buffalo NY PEO switch. This will occur on or after August 1, 2022.

Table A

	From	To
Entity	Varysburg, NY EO	Buffalo, NY PEO
CLLI	VRBGNYVBDS0	BFLONYFRPS0
Product	DMS10	CS2K
Location	2600 Route 20A Varysburg, NY 14167	65 Franklin Street Buffalo, NY 14202
Point Code	247 038 032	247 038 020
NXX Type	EOC	EOC
OCN	9104	9104
Rate Center LATA	140	140
Rate Center	Varysburg	Multi
State	NY	NY

Table B

NPA	NXX	TYPE	Switch
585	535	EOC	VRBGNYVBDS0

Network Changes and Trunk Rearrangements:

The Buffalo NY PEO switch will be the recipient office of traffic migrated from the Varysburg NY DMS10 switch. Traffic bound for the codes listed in Table B will be delivered via the Buffalo NY Tandem (BFLONYFR50T intra-lata SHA/BFLONYFR50T inter-lata FG Access SHA).

After all traffic is migrated off of the Varysburg NY DMS10 switch, it will be retired and removed from the network.

CLECs, IXC, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Buffalo NY PEO switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunks (DEOT) with access connectivity in the Varysburg NY DMS10 switch will be required to reposition the codes to the Buffalo NY PEO switch.

All ASRs for the Buffalo NY PEO switch must be received no later than June 15, 2022 in order to provide sufficient time to migrate the traffic described above. All traffic must be moved by August 1, 2022. All ASRs for the Buffalo NY PEO switch must carry the project code of **VRBGNYVBDS0**.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Varysburg NY DMS10 switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
