Carriers that have direct end office trunks (DEOT) with access connectivity in the Middleboro, MA 5ESS switch will be required to reposition the codes to the Newton, MA C20 switch.

All ASRs for the Newton, MA C20 switch must be received no later than November 14, 2024, to provide sufficient time to migrate the traffic described above. All traffic must be moved by January 2, 2025. All ASRs for the Newton, MA C20 switch must carry the project code of **MDLBMAJADS0**.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Middleboro, MA 5ESS switch.
