Subject : Verizon Partner Solutions Industry Letter: Ossining NY DMS Switch Retirement

PLEASE NOTE:

- All references to the Ossining NY DMS switch are associated with CLLI code OSNGNYOSDS0 and will not be repeated throughout this letter.
- All references to the Pleasantville NY CS2k switch are associated with CLLI code PSVLNYPVPSA and will not be repeated throughout this letter.

As set out in the Verizon New York Inc. Public Notice of Network Change Under Rule 51.329(a), dated June 21, 2024, on or after January 2, 2025, the Ossining NY DMS switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 914 currently residing in the Ossining NY DMS switch (see list in Table B below) will be moved to the Pleasantville NY CS2k switch (see details in Table A below).

The native NPA NXXs belonging to the Ossining NY DMS switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Pleasantville NY CS2k switch. This will occur on or after January 2, 2025.

Table A

	From	To
Entity	Ossining OSDS0	Pleasantville PVPSA
CLLI	OSNGNYOSDS0	PSVLNYPVPSA
Product	DMS	CS2k
Location	162 Main Street Ossining, NY 10562	465 Marble Avenue Pleasantville, NY 10570
Point Code	247 043 019	247 043 021
NXX Type	EOC	EOC
OCN	9104	9104
Rate Center Lata	132	132
Rate Center	W3A3	W3A4
State	NY	NY

Table B

NPA	NXX	TYPE	Switch
914	762	EOC	OSNGNYOSDS0
914	923	EOC	OSNGNYOSDS0
914	941	EOC	OSNGNYOSDS0
914	944	EOC	OSNGNYOSDS0
914	945	EOC	OSNGNYOSDS0

Network Changes and Trunk Rearrangements:

The Pleasantville NY CS2k switch will be the recipient office of traffic migrated from the Ossining NY DMS switch. Traffic bound for the codes listed in Table B will be delivered via the Whiteplains NY 08T Tandem (WHPLNYWP08T intra-lata SHA / WHPLNYWP08T inter-lata FG Access SHA).

After all traffic is migrated off the Ossining NY DMS switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers, and paging carriers will need to secure new trunk groups built to the Pleasantville NY CS2k switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Ossining NY DMS switch will be required to reposition the codes to the Pleasantville NY CS2k switch.

All ASRs for the Pleasantville NY CS2k switch must be received no later than November 1, 2024, to provide sufficient time to migrate the traffic described above. All traffic must be moved by January 2, 2025, per LERG. All ASRs for the Pleasantville NY CS2k switch must carry the project code of OSNGNYOSDS0.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Ossining NY DMS switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
