Subject : Verizon Partner Solutions Industry Letter: Woonsocket, RI DMS100 Switch Retirement

PLEASE NOTE:

- All references to the Woonsocket, RI DMS100 switch are associated with CLLI code WNSCRICLDS0 and will not be repeated throughout this letter.
- All references to the Blackstone, MA DMS100 switch are associated with CLLI code WNSCRICLDS1 and will not be repeated throughout this letter.
- All references to the Providence, RI C20 switch are associated with CLLI code PRVDRIWAPS1 and will not be repeated throughout this letter.
- All references to the Newton, MA C20 switch are associated with CLLI code NWTNMAWAPS1 and will not be repeated throughout this letter.

As set out in the Verizon New England Inc. Public Notice of Network Change Under Rule 51.329(a). dated June 21, 2024, on or after January 2, 2025, the Woonsocket, RI DMS100 switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 401 currently residing in the Woonsocket, RI DMS100 switch (see list in Table C below) will be moved to the Providence, RI C20 switch (see details in Table A below).

The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 508 currently residing in the Blackstone, MA DMS100 switch (see list in Table C below) will be moved to the Newton, MA C20 switch (see details in Table B below).

The native NPA NXXs belonging to the Woonsocket, RI DMS100 and the Blackstone, MA DMS100 switches will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Providence, RI C20 switch and/or the Newton, MA C20 switch. This will occur on or after **January 2, 2025**.

508	876	EOC	WNSCRICLDS1
508	883	EOC	WNSCRICLDS1

Network Changes and Trunk Rearrangements:

The Providence, RI C20 and/or the Newton, MA C20 switches will be the recipient offices of traffic migrated from the Woonsocket, RI DMS100 switch and the Blackstone, MA DMS100 switch. Traffic bound for the codes listed in Table C will be delivered via the Providence, RI Tandem (PRVDRIWA06T intra-lata SHA / PRVDRIWA06T inter-lata FG Access SHA) and/or the Newton, MA Tandem (NWTNMAWA01T intra-lata SHA/NWTNMAWA01T inter-late FG access SHA).

After all traffic is migrated off of the Woonsocket, RI DMS100 switch and the Blackstone, MA DMS100 switch, they will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Providence, RI C20 switch and/or the Newton, MA C20 switch or have existing trunk groups to those switches augmented. Carriers that have direct end office trunks (DEOT) with access connectivity in the Woonsocket, RI DMS100 switch and the Blackstone, MA DMS100 switch will be required to reposition the codes to the Providence, RI C20 switch and/or the Newton, MA C20 switch.

All ASRs for the Providence, RI C20 switch or the Newton, MA C20 switch must be received no later than November 15, 2024, to provide sufficient time to migrate the traffic described above. All traffic must be moved by January 2, 2025. All ASRs for the Providence, RI C20 switch or the Newton, MA C20 switch must carry the project code of WNSCRICLDS0.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Woonsocket, RI DMS100 switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
