## Subject: Verizon Partner Solutions Industry Letter: Northwood MD 5ESS Switch Retirement

## **PLEASE NOTE:**

- All references to the Northwood MD 5ESS switch are associated with CLLI code SLSPMDNWDS0 and will not be repeated throughout this letter.
- •All references to the Hyattsville MD CS2K switch are associated with CLLI code HYVLMDHYPS0 and will not be repeated throughout this letter.

As set out in the Verizon Maryland LLC Short Term Public Notice Under Rule 51.333(a), dated September 23, 2024, on or after February 1, 2025, the Northwood MD 5ESS switch will be retired and removed from the Verizon network.

**General Information:** The Northwood MD 5ESS switch will be replaced by the Hyattsville MD CS2K switch. See details in Table A.

The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 301 currently residing in the Northwood MD 5ESS switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) on or after February 1, 2025. See details in Table B.

## Table A

I able A			
Description	From	То	
Office Name	Northwood	Hyattsville	
CLLI Code	SLSPMDNWDS0	HYVLMDHYPS0	
Switch Type	5ESS	C2SK	
Location	518 University Boulevard W.	5500 Baltimore Avenue Hyattsville, MD	
	Silver Spring, MD 20901	20781	
Point Code	246 193 108	246 193 152	
NXX Type	EOC	EOC	
OCN	9212	9212	
Rate Center LATA	236	236	
Rate Center	NORTHWOOD	HYATTSVILLE	
State	MD	MD	

Table B			
NPA	NXX	TYPE	RATECENTER
301	592	EOC	NORTHWOOD
301	593	EOC	NORTHWOOD
301	649	EOC	NORTHWOOD
301	681	EOC	NORTHWOOD
301	754	EOC	NORTHWOOD
301	905	EOC	NORTHWOOD

## **Network Changes and Trunk Rearrangements:**

The Hyattsville MD CS2K switch will be the recipient office of traffic migrated from the Northwood MD 5ESS switch. Traffic to be migrated to the Hyattsville MD CS2K switch includes all of the traffic currently handled by the Northwood MD 5ESS switch including, but not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), and Intra-LATA and local traffic (including CLEC, IEC, wireless and Verizon sector end office switched traffic). After all traffic is migrated off of the Northwood MD 5ESS switch, this switch will be retired and removed from the network.

All CLECs, IXCs, IECs, ILEC, wireless carriers and paging carriers will need to provision new trunk groups to support direct

end office trunking to the Hyattsville MD CS2K switch. Carriers with existing trunk groups to this switch will need to augment if necessary.

All ASRs for the Hyattsville MD CS2K switch must be received no later than **October 19, 2024**, to provide sufficient time to migrate the traffic described above. All traffic must be moved on or after **February 1, 2025**, based on LERG change notification. ASRs for the Hyattsville MD CS2K switch must carry the project code of **SLSPMDNWDS0**.

Upon decommissioning of the Northwood MD 5ESS switch, the six (6) native codes (NPA NXXs) that currently reside in **the** Northwood MD 5ESS switch will reflect the Hyattsville MD CS2K switch in the LERG.

Submission of disconnect ASRs to Verizon for the Northwood MD 5ESS switch are required immediately after the re-homing of traffic is complete.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Northwood MD 5ESS switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
