PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

December 1, 2022

Carrier: Verizon Washington, DC Inc., 1300 I Street, Suite 500 East, Washington, DC, 20005

Contact: For additional information on these planned network changes, please contact:

Steven Tobia
Global Engineering and System Performance
Verizon Wireline Network Operations
13100 Columbia Pike
Silver Spring, MD 20904
(410) 707-7964

John Dunne
Senior Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
2147 Hwy 27
Edison, NJ 08817
(732) 593-4003

Implementation Date: On or after **July 3, 2023**

Planned Network Change(s) Will Occur at the Following District of Columbia Location(s):

Verizon Central Office	Address	CLLI
BROOKLAND DC 5E Switch	1039 Lawrence Street N.E. Washington, DC 20017	WASHDCBKDS0
SOUTHWEST DC CS2K Switch	30 E Street S.W. Washington, DC 20024	WASHDCSWPS0

This notice may also be viewed at:

<http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Brookland DC 5E switch are associated with CLLI code WASHDCBKDS0 and will not be repeated throughout the notice.

- All references to the Southwest DC CS2K switch are associated with CLI code WASHDCSWPS0 and will not be repeated throughout the notice.

Description of the Planned Network Change(s):

The Verizon Brookland DC 5E switch, located at 1039 Lawrence Street N.E., Washington, DC 20017, will be retired and removed from the Verizon network after all traffic served by this switch is migrated to the Southwest DC CS2K switch, located at 30 E Street S.W., Washington, DC 20024. All traffic to be migrated to the Southwest DC CS2K switch includes, but is not limited to, inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

All carriers, including competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to provision new trunk groups to support direct end-office trunking to the Southwest DC CS2K switch or have existing trunk groups to that switch augmented.

All ASRs for the Southwest DC CS2K must be received no later than **May 22, 2023** to provide sufficient time to migrate the traffic described above. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Brookland DC 5E switch (**on or after July 3, 2023**). This will serve to guide interconnect re-routes of traffic for the NPA codes currently served by the Brookland DC 5E switch to reflect the Southwest DC CS2K switch as the new home switch. All trunks to the Southwest DC CS2K switch must be in place prior to the decommissioning of the Brookland DC 5E switch. All ASRs for the Southwest DC CS2K switch must carry a project code of **WASHDCBKRPO**.
