

6929 N. Lakewood Avenue  
Tulsa, OK 74117

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)**

April 12, 2023

**Carrier:** Verizon New York Inc., 140 West Street, New York, NY 10007

**Contact:** For additional information on these planned network changes, please contact:

Marcia Chaffin  
Verizon Network Engineering  
385 Myles Standish Blvd.  
Taunton, MA 02780  
978-552-3638

John Dunne  
Manager – Global Engineering and System Performance  
Verizon Wireline Network Operations  
999 W Main St., 04 FLR,  
Freehold, NJ USA 07728  
732-683-5126

**Implementation Date:** On or after December 1, 2023

**Planned Network Change(s) will occur at the following location(s) in New York:**

Verizon Central Office	Address	CLLI
Otego, NY DMS10 Switch	7 Averill Street Otego, NY 13825	<b>OTEGNYOTDS0</b>
Oneonta, NY DMS100 Switch	17 Elm Street Oneonta, NY 13820	<b>ONNTNYOADS0</b>

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Otego, NY DMS10 switch are associated with CLLI code OTEGNYOTDS0 and will not be repeated throughout this notice.

- All references to the Oneonta, NY DMS100 switch are associated with CLLI code ONNTNYOADS0 and will not be repeated throughout this notice.

### **Description of the Planned Network Change(s):**

The Verizon Otego, NY DMS10 switch, located at 7 Averill Street, Otego, NY 13825, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Oneonta, NY DMS100 switch, located at 17 Elm Street, Oneonta, NY 13820. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

### **Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Oneonta, NY DMS100 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Otego, NY DMS10 switch will be required to reposition the codes to the Oneonta, NY DMS100 switch.

All ASRs for the Oneonta, NY DMS100 switch must be received no later than October 20, 2023 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Otego, NY DMS10 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Otego, NY DMS10 switch (**on or after December 1, 2023**). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Otego, NY DMS10 switch to reflect the Oneonta, NY DMS100 switch as the new home switch. All ASRs for the Oneonta, NY DMS100 switch must carry the project code of OTEGNYOTDS0.
