SHORT TERM PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.333(a)

This Notice replaces Verizon New York’s previously-filed Public Notice on July 19, 2023 (dated July 12, 2023) seeking an on or after March 1, 2024 implementation date. With this re-filing, Verizon New York advances the implementation date to on or after November 1, 2023.

August 16, 2023

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

Quadre Washington
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
320 Saint Paul Pl
Baltimore, MD 21202
410-736-4261

Implementation Date: On or after November 1, 2023.

Planned Network Change(s) will occur at the following location(s) in New York:

Verizon Central Office	Address	CLLI
Central Bridge, NY DMS100 Remote	S/S Chase Dr., Central Bridge, NY 12035	CNBRNYCDRS0
Central Bridge, NY T1000 Remote	130 Chase Dr., Central Bridge, NY 12092	CNBRNYCDRP0
Albany, NY Packet End Office	158 State St., Albany, NY 12207	ALBYNYSSPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Central Bridge NY DMS100 remote switch are associated with CLI code CNBRNYCDRS0 and will not be repeated throughout this notice.
- All references to the Central Bridge NY T1000 Remote packet switch are associated with CNBRNYCDRP0 and will not be repeated throughout this notice.
- All references to the Albany, NY Packet End Office (PEO) are associated with CLI code ALBYNYSSPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Central Bridge NY DMS100 remote switch, located at S/S of Chase Dr., Central Bridge, NY 12035, will be retired and removed from the network after all traffic served by this switch is migrated to the Central Bridge NY T1000 remote packet switch located at 130 Chase Dr., Central Bridge, NY 12092. All traffic to be migrated to the Central Bridge T1000 remote switch will be homed to the Albany, NY Packet End Office switch. Traffic includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Albany, NY Packet End Office switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Central Bridge, NY DMS100 remote switch will be required to reposition the codes to the Albany, NY Packet End Office switch.

All ASRs for the Albany, NY Packet End Office switch must be received no later than October 1, 2023 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Central Bridge, NY DMS100 remote switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Central Bridge, NY DMS100 remote switch (**on or after November 1, 2023**). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Central Bridge, NY DMS100 remote switch to reflect the Central Bridge T1000 remote packet switch and the Albany, NY Packet End Office switch as the new home switch. All ASRs for the Albany, NY Packet End Office switch must carry the project code of CNBRNYCDRS0.
