Senior Manager – Global Engineering and System Performance  
Verizon Wireline Network Operations  
320 Saint Paul Place,  
Baltimore, MD 21202  
(410) 736-4261

**Implementation Date:** On or after **April 01, 2024**

**Planned Network Change(s) Will Occur at the Following Virginia Location(s):**

| <b>Verizon Central Office</b> | <b>Address</b>                                  | <b>CLLI</b>        |
|-------------------------------|---|--------------------|
| Mount Vernon VA EWS Switch    | 8534 Old Mt Vernon Road<br>Alexandria, VA 22309 | <b>ALXNVAMVDS0</b> |
| Fairfax VA CS2K Switch        | 10431 Fairfax Boulevard<br>Fairfax, VA 22030    | <b>FRFXVAFFPS0</b> |

**This notice may also be viewed at:**

<http://www.verizon.com/about/terms-conditions/network-disclosures>

**PLEASE NOTE:**

- All references to the Mount Vernon VA EWS switch are associated with CLLI code ALXNVAMVDS0 and will not be repeated throughout the notice.

- All references to the Fairfax VA CS2K switch are associated with CLLI code FRFXVAFFPS0 and will not be repeated throughout the notice.

**Description of the Planned Network Change(s):**

The Verizon Mount Vernon VA EWS switch, located at 8534 Old Mt Vernon Road, Alexandria, VA 22309, will be retired and removed from the Verizon network after all traffic served by this switch is migrated to the Fairfax VA CS2K switch, located at 10431 Fairfax Boulevard, Fairfax, VA 22030. All traffic to be migrated to the Fairfax VA CS2K switch includes, but is not limited to Inter-LATA (ACCESS/FG-B-D/CLEC IXC), wireless and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

All carriers, including competitive local exchange carriers (CLECs), Interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers, will need to provision new trunk groups to support direct end office trunking to the Fairfax VA CS2K switch or have existing trunk groups to that switch augmented.

All ASRs for the Fairfax VA CS2K must be received no later than **February 19, 2024** to provide sufficient time to migrate the traffic described above. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Mount Vernon VA EWS switch (**on or after April 01, 2024**). This will serve to guide interconnect re-routes of traffic for the NPA codes currently served by the Mount Vernon VA EWS switch to reflect the Fairfax VA CS2K as the new home switch. All trunks to the Fairfax VA CS2K must be in place prior to the decommissioning of the Mount Vernon VA EWS switch. All ASRs for the Fairfax VA CS2K switch must carry a project code of **ALXNVAMVRP0**.
