**Description of the Planned Network Change(s):**

The Verizon Franklin NY 5E switch, located at 108 Franklin Place, Woodmere, NY 11598, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Williamsburg NY C20 switch, located at 55 Meserole Street, Brooklyn, NY 11206. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Williamsburg NY C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Franklin NY 5E switch will be required to reposition the codes to the Williamsburg NY C20 switch.

All ASRs for the Williamsburg NY C20 switch must be received no later than May 1, 2024 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Franklin NY 5E switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Franklin NY 5E switch (**on or after July 1, 2024**). This will serve to guide interconnect re-routes of traffic for the five (5) native codes currently served by the Franklin NY 5E switch to reflect the Williamsburg NY C20 switch as the new home switch. All ASRs for the Williamsburg NY C20 switch must carry the project code of **WDMRNYFRDS0**.
