Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

June 21, 2024

Carrier: Verizon New England Inc., 6 Bowdoin Square, 9th Floor, Boston, MA 02114

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

Quadre Washington
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
320 Saint Paul Pl.
Baltimore, MD 21202
410-736-4261

Implementation Date: On or after January 2, 2025.

Planned Network Change(s) will occur at the following location(s) in Rhode Island:

Verizon Central Office	Address	CLLI
Woonsocket, RI DMS100 Switch	199 Clinton Street Woonsocket, RI 02895	WNSCRICLDS0
Blackstone, MA DMS100 Switch	199 Clinton Street Woonsocket, RI 02895	WNSCRICLDS1
Providence, RI C20 Switch	234 Washington Street Providence, RI 02903	PRVDRIWAPS1
Newton, MA C20 Switch	787 Washington Street Newton, MA 02460	NWTNMAWAPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Woonsocket, RI DMS100 switch are associated with CLI code WNSCRICLDS0 and will not be repeated throughout this notice.
- All references to the Blackstone, MA DMS100 switch are associated with CLI code WNSCRICLDS1 and will not be repeated throughout this notice.
- All references to the Providence, RI C20 switch are associated with CLI code PRVDRIWAPS1 and will not be repeated throughout this notice.
- All references to the Newton, MA C20 switch are associated with CLI code NWTNMAWAPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Woonsocket, RI DMS100 switch and the Blackstone, MA DMS100 switch, both located at 199 Clinton Street, Woonsocket, RI 02895, will be retired and removed from the network after all traffic served by these switches is migrated to the Verizon Providence, RI C20 switch, located at 234 Washington Street, Providence, RI 02903, or the Newton, MA C20 switch, located at 787 Washington Street, Newton, MA 02460. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Providence, RI C20 switch and/or the Newton, MA C20 switch or have existing trunk groups to those switches augmented. Carriers that are code holders for access connectivity in the Woonsocket, RI DMS100 switch and/or the Blackstone, MA DMS100 switch will be required to reposition the codes to the Providence, RI C20 switch and/or the Newton, MA C20 switch.

All ASRs for the Providence, RI C20 switch or the Newton, MA C20 switch must be received no later than November 15, 2024, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Woonsocket, RI DMS100 switch and the Blackstone, MA DMS100 switch prior to their eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Woonsocket, RI DMS100 switch and the Blackstone, MA DMS100 switch (**on or after January 2, 2025**). This will serve to guide interconnect re-routes of traffic for the fifteen (15) native codes currently served by the Woonsocket, RI DMS100 switch to reflect the Providence, RI C20 switch as the new home switch, and the two (2) native codes currently served by the Blackstone, MA DMS100 switch to reflect the Newton MA C20 switch as the new home switch. All ASRs for the Providence, RI C20 switch and the Newton, MA C20 switch must carry the project code of **WNSCRICLDS0**.
