Order Administration Enhancements

New required field for the Custom Optical Solutions Requirements Document number (CORSD) for 100G USPL orders

The screenshot displays the 'Administration' tab of the Verizon WaveLength Solutions interface. It features two location sections, each with fields for 'Structure Type', 'Elevation Type', 'Unit Type', 'Structure Value', 'Elevation Value', and 'Unit Value'. Below these sections are fields for 'Company', 'AT&T/CLE', 'Term', 'Contract', and 'EXEWSite'. A red box highlights the 'CORSD (Engagement Script Case Number)' field, which is a new required field for 100G USPL orders. Another red box highlights the 'F&E SAN' field, which is currently set to 'None'. A callout box on the right provides additional information about the 100G ordering process.

From Location	To Location
10000 ORANGE ST BLOOMINGTON CA 92016	800 ATLANTIC AVE BROOKLYN NY 11217

CORSD (Engagement Script Case Number)

F&E SAN: None

CORSD (Engagement Script Number)

100G ordering requires special processing, including network design via ES Bid Script process. Please contact your Verizon Account Team for more details. Failure to supply Engagement Script Number could result in ordering delays.

Wavelength Solutions | Mesh Restoration

Mesh Restoration (option will be displayed in Advanced Features menu on Configuration screen)

- New feature for 10 Gbps (National) speeds offering Protected IXC Transport in the Domestic U.S.

The screenshot displays the configuration interface for Wavelength Solutions. The top navigation bar includes 'Details', 'Configuration' (active), 'Pricing', and 'Summary'. The 'Wavelength Service' section shows 'Speed' set to '10 Gbps', 'Contract ID' as 'CT2231-02', and 'Protected' set to 'No'. The 'Advanced Features' section includes 'RTD SLA Feature' set to 'No' and 'Mesh Restoration' set to 'Yes', which is highlighted with a red box. Below this, there is a 'Verify Access Type' section and 'Contract Terms (in years)' set to '3'. At the bottom, there are 'Back' and 'Next' buttons.

Internet Dedicated Services – DDoS Security

DDoS Security | Configuration Screen Enhancements

DDoS Security feature bundled with Internet Dedicated Services will be available for Port & Access and Port-Only, with Tiered, Burstable Select, and Essential Port configurations

After Selecting Internet Dedicated + from the Shop by Products screen, complete the Details page and click Next.

DDoS is selectable from the Configuration tab.

The screenshot shows the 'Configuration' tab of the Verizon Partner Solutions Exchange. The page title is 'TEST10GPORTONLY' with a sub-header 'Product Selected: Internet Dedicated + Internet Dedicated Ethernet'. The navigation bar includes 'Details', 'Configuration' (highlighted), 'Pricing', and 'Summary'. The 'Port Configuration' section has a 'Port-Only' checkbox checked and a warning icon. Below it, 'Port Configuration' is set to 'Burstable Select'. The 'Speed' section shows 'Part 1' selected as '10 Gbps' and 'Circuit 1' selected as '5 Gbps'. The 'Options' section includes a 'DDoS Security' checkbox that is checked and highlighted with a red box. At the bottom, there are 'Previous' and 'Next' buttons.

DDoS Security | Pricing Screen Enhancements

DDoS Security | Summary Screen Enhancements

The screenshot shows the Verizon Partner Solutions Exchange interface. At the top, there is a navigation bar with the Verizon logo, a 'Start' button, and user information including 'Messages', 'My Items', and 'Welcome'. Below this is a red banner with the text 'Welcome to Verizon Partner Solutions Exchange!'. The main navigation area includes a breadcrumb trail: 'TESTDDOS111021V2' (with an edit icon), 'Product Selected: Internet Dedicated +', and a series of steps: 'Details', 'Configuration', 'Pricing', and 'Summary' (which is highlighted in black). The 'Quote Summary' section is displayed in a dark header with a heart and download icon. The summary table lists the following details:

Company:	VERIZON INTERNET SERVICES NORTH INC	Product:	Internet Dedicated +
Location:	620 ATLANTIC AVE BROOKLYN NY 11217	Speed:	Port:100 Mbps Access:100 Mbps Interface:100 Mbps
Port Configuration:	Tiered	Terms:	1 Year(s)
Access:	On-Net (Type 2)		
Contract:	C72231-02		
DDoS Security:	Yes		
Customer Comments:	Test ID+ w/ DDoS Security (DO NOT PROCESS)		

Below the table, the pricing information is shown: 'MRC: \$945.00 (Including DDoS Security)' (highlighted with a red box) and 'NRC: \$100.00'. There is a 'Request Custom Price' button and an 'Assign To Order' dropdown menu. At the bottom of the screen, there are buttons for 'Show History', 'Discard', 'Back', 'Save', and 'Submit'.

Circuit ID not found. If not active, it may cause a delay with your order 32k

Note: Entire circuit must be entered, entering the address is optional.

Quote Enhancements | IOF Mileage

When applicable, IOF milage will be displayed on the Summary screen and the Quote PDF

The screenshot displays the Verizon quote system interface. At the top, the Verizon logo is on the left, and a 'Start Now' button, 'Messages' icon, 'My Items' dropdown, and 'Welcome Kevin' are on the right. Below this is a navigation bar with 'Testvzt' and 'Product Selected: Switched E-Line UNI'. The main navigation tabs are 'Details', 'Configuration', 'Pricing', and 'Summary' (which is highlighted with a black arrow). The 'Quote Summary' section is a large white box with a black header containing 'Save as Favorite', a share icon, and a download icon. The summary content is organized into two columns. The left column lists: Company: MCI COMMUNICATIONS CORPORATION-MCI COMMUNICATIONS CORPORATION(MCI), Location: 225 FRANKLIN BOS MA 02110, TSP: None, Contract, and Customer Comments: Test V2T. The right column lists: Product: Switched E-Line UNI, Speed: UNI, Terms: Year(s), and IOF Miles: 3. The 'IOF Miles: 3' field is highlighted with a red rectangular border. Below the summary box, there is a 'Show History' button on the left, and 'Discard', 'Back', 'Save', and 'Submit' buttons on the right. An 'Assign To Order' dropdown menu is also visible in the bottom right corner of the summary box.

Note: *Currently applicable to Switched E-Line (TLS)

Multi-Location Quoting

Multi-Location Quoting

Uploading a file: Switched E-Line Metro/Regional (TLS)

1. Select Multi-Loc Quote
2. Select Configuration (Product Name, Product Offering Company, Term and Contract ID as applicable)
3. Click Upload
4. Click Addresses link to download the Excel template

The screenshot displays the 'Quote Configuration' interface. On the left, a 'Start' menu has 'Multi-Loc Quote' highlighted with a red circle '1'. The main configuration area includes fields for 'Product Name' (Switched E-Line Metro/Regional (TLS)), 'Product Offering' (UNI/EVC Combo, circled with a red '2'), 'Company', 'Term (in years)' (set to 3), and 'Contract ID'. Below these is a table with columns 'No.' and 'Location'. A red box highlights the 'Upload' button, with a red circle '3' next to it. To the right, the 'Upload' section shows 'File Type' set to 'Addresses'. Further right, the 'Templates' section has 'Addresses' selected, circled with a red '4'. A red 'Submit' button is at the bottom.

From the pop up:

Fill out template appropriately and save the document

1. Click Upload Files or drag and drop the saved template to the Upload Files button
2. Click Submit

The image shows a 'Quote Configuration' window with fields for Product Name, Group Name, Product Offering, Company, and Contact ID. Below these fields is a table with columns for No., Location, and Address Type. An 'Upload' pop-up is overlaid on the table, containing an 'Upload Files' button (highlighted with a red box and a red circle with the number 1), a 'File Type' dropdown menu set to 'Addresses', and a 'Submit' button. A second, larger 'Upload' pop-up is shown below, displaying the 'Upload Files' button (highlighted with a red box and a red circle with the number 2), the 'File Type' dropdown menu set to 'Addresses', and the 'Submit' button (highlighted with a red box and a red circle with the number 2). A green message 'Uploaded File: ATT11013130.csv' is visible below the 'Upload Files' button in the second pop-up.

Note: Product configuration will need to be entered manually after the upload.

Switched E-Line Metro/Regional (TLS)

Generate a standard price quote for TLS within the multi location process.

1. Select Product, Product Offering and Company
2. Select Term and Contract ID
3. Enter location
4. Enter the speed, select Performance, Customer VLAN
5. Copy or add additional locations (as desired)
6. Select Get Pricing
