- Third Party Cross Connect

# Wavelength Solutions Enhancements|Order

The following will also be displayed:

- New Transparent protocol option
- Platinum Operational Performance when user selects 'YES' or "Protected Access"
- Silver Operational Performance when user selects 'NO'.

The screenshot shows the Verizon Wavelength Solutions Configuration interface. The 'Protocol' field is highlighted with a red box, showing options: Gba-PHY, LAN-PHY, WAN-PHY, OTU-2, OTU-2e, and Transparent. The 'Transparent' option is selected and highlighted with a red box. The interface also shows fields for From Location, To Location, From Interface, To Interface, From Connector Type, To Connector Type, and From Power, To Power. A 'Remarks' field is also present.

---

# Quoting

# Multi Location Enhancements

Additional product options in the Multi-Loc quoting journey to request pricing for non-standard configurations. Applicable to the following products: **Metro Wavelength (DWDM)**, **US Wavelength (DWDM)**, **Internet Dedicated Services**, **Switched E-Line Metro/National (EVPL)**, **Switched E-Line & Private IP (PIP)**

From the Multi-Loc quoting journey:

- Select applicable Product
- Enter Location(s)
- Select Speed and Term
- Select Currency
- Get Pricing

The screenshot displays the Verizon Quote Configuration interface. At the top, there is a navigation bar with the Verizon logo, a 'Start' button, and user information including 'Messages', 'My Items', and 'Welcome'. The main section is titled 'Quote Configuration' and contains several input fields: 'Product Name' (set to 'Wavelength Solutions'), 'Product Offering' (with a dropdown menu open), and 'Company'. The dropdown menu for 'Product Offering' is expanded, showing a list of options: '--Select One--', 'Metro/National WAVE (Current Platform)', 'Metro/Regional Wave(OWS)', 'Metro Wavelength (DWDM)', 'U.S. Wavelength (DWDM)', 'Linear Global Data Link', and 'International Cable Lease'. Below the input fields, there is a table with columns for 'No.', 'From Location\*', 'Access Type', 'Termination Type\*', 'Speed\*', 'From Additional Features', and 'To Additional Features'. At the bottom of the interface, there are 'Save' and 'Get Pricing' buttons. The bottom right corner shows '0 - 0 of 0' with navigation arrows.

The quote will present **\$0.00 MRC, \$0.00 NRC (Status=Open)**. Contact your account team for a custom quote.

This process is applicable for all other Multi-Loc products, when selecting a non- standard speed, and presented **\$0.00 MRC, \$0.00 NRC and the (Status= Error)** Open a Care Request.

---

# Ordering

Note: 2G is only available in the Verizon Partner Solutions Exchange portal.

# Test Results | Access via Milestones

The minor milestones have been updated to display Y:1564 or RFC test results. (This applies to VzB Ethernet and VZON respectively.)

The screenshot displays a 'Milestones' dashboard. At the top, it shows 'Start Date - 1/24' and 'Due Date - 10/22'. The 'Order Status' is 'In Progress' with a blue dot, and the 'Milestone' is 'Completion'. Below this is a progress bar with seven milestones: Acceptance, Network Evaluation, FOC Summary, Build, Provisioning, Activation, and Completion. Each milestone has a green progress bar and a date of 01/24/2023. A red box highlights a 'Test Results' button with a green checkmark. Another red box highlights a 'Service Order' section containing the following information:

- Service Order:** DEDELINFP2M124
- Circuit Id:** E1158601
- Date available:** 01/24/2023

# Test Results | Access via Tools Menu

Test results can also be retrieved by

1. Tools
2. Test Results
3. Access
4. Enter Circuit ID and
5. Download the test results.

The image shows a screenshot of the Verizon Tools menu and the Test Results page. The Tools menu is on the left, and the Test Results page is on the right. Red boxes and numbers 1 through 5 highlight the steps to access the test results.

**Tools Menu:**

- 1. Tools (highlighted with a red box and number 1)
- My Worklists
- My Favorites
- Billing

**Support Tools:**

- Migration
- Voice
- Data Library
- Ethernet Capacity Tool
- Historical Records
- 2. Test Results (highlighted with a red box and number 2)

**Y.1564 Test Results:**

Ethernet test results available for Exchange and non-Exchange processed orders.

3. Access (highlighted with a red box and number 3)

**Test Results Page:**

4. Enter Circuit ID (highlighted with a red box and number 4)

5. Download (highlighted with a red box and number 5)

Note: User must have Ordering, Delivery and Repair Roles for access.

---

# Website Revised

# Updated Training Website|Learning Library

Fresh new look, smoother page to page navigation with access to Job Aids, Quick Tips, Release Notes and much more.

The screenshot shows the Verizon Partner Solutions Exchange Learning Library website. The header includes navigation links for 'Products', 'Resources', 'Contact Us', and 'Why Verizon', along with 'Log In' and a search icon. The main banner features the title 'Verizon Partner Solutions Exchange Learning Library' over an image of people in a meeting. Below the banner are links for 'Learn', 'What's trending', and 'Schedule training'. The main content area is titled 'Learning resources geared to how you work' and includes three featured sections: 'Learning Materials' (Easy step-by-step instructions for a variety of products and functions), 'Quick Tips' (Review useful tips on transacting in the Verizon Partner Solutions Exchange Portal), and 'Release Notes' (Stay updated on the latest changes to the Verizon Partner Solutions Exchange Portal). A 'What's trending' section lists recent additions: 'Activation Scheduling', 'Dedicated Access Line Ordering', 'VzB PIP Ordering', 'VzB Private Line Ordering', 'VzB Wave (non-optimized) Ordering', and 'VzON Point Multi'. Navigation arrows are visible at the bottom right.
