

Fixed Wireless Access (FWA) Availability Job Aid

Wireless broadband connectivity between two fixed points

Getting Started

From the **Shop** menu, click “**Service Availability**”

Availability Configuration

1. Select **Product Name: Broadband Services**
2. Select **Product Offering : Fixed Wireless Access**
3. Choose **Company Name** from the drop down
4. Modify **Group Name** if needed, (minimum of 4 characters maximum of 12)

Product Name* Broadband Services 1	Product Offering* Fixed Wireless Access 2	Company* ABC Telephone 3
Group Name* FWA111114250 4		

1. Enter **Location**
2. Enter **Sublocation Information: Structure, Elevation, Unit (If needed)**
3. Click + to enter **New Sublocation Information: Structure, Elevation, Unit (If needed)**
4. Click **Save** (optional)

Click **Availability**

The screenshot shows the availability configuration interface. At the top, there is an 'Upload' button and icons for 'Delete', 'Copy', and 'Add'. Below this is a table with columns for 'No.', 'Location*', and 'Sub-Location Information(Structure, Elevation, Unit)'. The first row contains the number '1', a location pin icon, and the address '14131 GOLTS CALDWELL RD.'. A red circle '1' is next to the location field, and a red circle '2' is next to the sub-location information field. A red circle '3' is next to a '+' icon in the sub-location information field. Below the table are 'Save' and 'Availability' buttons, with a red circle '4' next to the 'Save' button. An arrow points from the '+' icon in the table to a modal window titled 'Location:'. The modal contains 'Additional Location Details-Sub-Loc:' with three dropdown menus: 'Structure Type:' (Select Structure), 'Elevation Type:' (Select Elevation), and 'Unit Type:' (Select Unit). Below these are three input fields: 'Structure Value:*' (Please Enter Structure Value), 'Elevation Value:*' (Please Enter Elevation Value), and 'Unit Value:*' (Please Enter Unit Value). At the bottom of the modal are 'Submit' and 'Close' buttons.
