

Verizon Partner Solutions Exchange

August 2024 Release

The next release upgrade of the Verizon Partner Solutions Exchange platform is on **Sunday, August 25, 2024** and includes the following capabilities.

Product Package: Internet Dedicated Services & Fixed Wireless Access (FWA)

Introduce the "Shop by Package" capability to streamline the quoting and ordering process when combining either Internet Dedicated+ or Internet Dedicated Ethernet with FWA in a backup or active secondary line configuration.

Internet Dedicated+ Ordering Enhancement

Add options on the Order Configuration to choose the exact IPv4 or IPv6 allocation for the IP address and capture Peer Group and Customer Autonomous System Number (ASN) information required for provisioning the order provisioning.

Delivery Worklist (Beta Release)

View the status of all pending orders across a company in one worklist, both portal and API orders submitted in Verizon Partner Solutions Exchange, and orders submitted via Legacy systems. In addition, a report of completed and canceled orders can be downloaded.

Network Management: Inventory

Provide customers with a list of circuits impacted by decommissioning activity purchased through Verizon Business and former XO entities. In addition, customers view all their decommissioning notifications and initiate an information request or inquiry to Verizon as needed.

User Experience Improvements

- **Hamburger Menu (☰)** - Ability to initiate Repair actions directly from this menu
- **Order Requests** - Orders previously found on the Request Worklist are now on the Order Worklist, and have milestones available.

System Downtime - Friday, August 23 at 8 pm to Sunday, August 25 at 12 am (Eastern Time)

During this release upgrade, the system will be unavailable to process quotes, orders, tickets, and other transactions.

If you have any questions concerning this notification, contact the Care Team by submitting a Care Request from Verizon Partner Solutions Exchange.

Release notes and job aids are available for this release in the Verizon Partner Solutions Exchange [Learning Library](#)
