

Keep your mobile workforce protected and productive.

Verizon Business Mobile Secure:
The simple way to protect your mobile devices

Fact sheet

Despite the potential for a data breach to destroy what they've achieved, small and medium-sized businesses (SMBs) have recognized 82% of breaches involve the "human element". People make mistakes. According to the Verizon Mobile Security Index (MSI) 2022 report, SMBs that sacrificed mobile security were nearly 3.5 times more likely to suffer a security compromise.

Business Mobile Secure combines a number of security products and services from Verizon and our technology partners into one easy-to-use bundle built to meet the security needs of SMBs, particularly those with active mobile workforces. This multilayered security approach includes mobile device management (MDM), and mobile threat defense and network protection, along with dedicated tech support.

Bundle components

- Mobile device management. Take control of your business mobility with device configuration, user and app policy creation, and other tools through Verizon Mobile Device Management.
- Mobile threat defense. Address risks and mitigate against phishing-, app-, network- and device-based threats using Lookout® for Small Business.
- Wi-Fi protection. Get notifications from Lookout for Small Business when a device attempts to connect to an unsecured Wi-Fi.
- Dedicated Chat support. BMS chat support services that cover components of the bundle and can direct customers to online resources, available between 8 a.m. and 7 p.m. |local time, 7 days a week.

Business Mobile Secure benefits

- Receive end-to-end protection for your mobile devices – all for one low monthly fee
- Maintain productivity by quickly diagnosing issues, helping |to prevent them from becoming serious
- Embrace more-flexible mobility programs, including bring your own device (BYOD), to stay competitive
- Manage device permissions and assign business policies to employees and work groups remotely – no need to collect devices
- Help keep your business up and running with access to live chat experts for tech support
- Get a solution that's easy to set up and maintain – no IT department needed
