

Keep your business up and running.

Verizon Care

You're only ready to successfully operate your business when your global network and equipment is up and running. Normal operating hours for business today means around-the-clock accessibility. This is why we offer Verizon Care*.

Keeping your network in top operating shape takes constant upkeep. But, tying up your network personnel with day-to-day equipment maintenance isn't the best use of time or money.

Verizon Care covers your network equipment. We help you troubleshoot and isolate problems whether you experience any network or CPE issues. Technical support is just a phone call away. If our team of engineers can't resolve the problem over the phone, we can dispatch a field technician per your service level option to assist. The same goes for replacement parts, which may be sent in as little as a few hours.

More options can give you better peace of mind.

Verizon Care provides a reliable solution for equipment problems, parts replacement and on-site support. We quote, contract, bill and renew all of our own plans, and offer you multiple coverage options to choose, including:

Service level options	Verizon technical support	Advanced parts replacement from OEM	On-site technician
7x24x4 On-site Support	7 days/week, 24 hours/day	4 hours ¹	A qualified field technician will travel to the customer site generally within 4 hours to meet and install the replacement unit, remove defective device and update their profile accordingly.
5x8 Next Business Day On-site Support	5 days/week (M-F), between the hours of 8 AM and 5 PM local time (excluding Verizon holidays)	1 business day ^{1,2}	A qualified field technician will travel to the customer's site to install the replacement unit and will arrive generally within one business day after Verizon determines failure.
5x8 Next Business Day Remote Support	5 days/week (M-F), between the hours of 8 AM and 5 PM local time (excluding Verizon holidays)	1 business day ^{1,2}	Not available. Intended for equipment that is easily replaced by the customer.
Reasonable effort	5 days/week (M-F), between the hours of 8 AM and 5 PM local time (excluding Verizon holidays)	Verizon will work with the manufacturer to have a replacement unit sent to the customer's site based on the "reasonable effort" and availability of a replacement unit by the manufacturer. ^{1,2}	Not available. This plan provides hardware "drop ship" support where there is no other service plan coverage option available based on the customer's geographic location.

1. Equipment must be determined by Verizon to be defective. Verizon Care Plan availability varies by location, vendor and service type. Term & conditions apply. See your Verizon account manager for details.

2. Verizon will provide a prepaid shipping label so the customer may return the failed unit to the manufacturer.
