

# Yealink® CPW65: DECT Wireless Microphones for the CP965 IP conference phone

Specifications

The CPW65 is a set of Wireless Expansion Mics that work as an audio input device for the CP965 IP conference phone. The CPW65 has an advanced liquid-resistant black fabric like the CP965 conference phone, providing protection from liquid spills. It has 3 built-in microphones to support a 360-degree, 10-foot radius, voice pickup range which helps balance the crystal-clear audio experience. You can easily expand the voice pickup range of the CP965 by connecting it to a second CPW65 wirelessly. Its long battery life can offer an 11-day standby time and a 13-hour talk time.
