## DECT technology

Yealink DECT technology is based on CAT- iq2.0, which focuses on high quality Audio VoIP (wideband), and low bit - rate data applications. However, it is not compatible with any third-party DECT devices such as base stations and handsets.

## Key features and benefits

The W78HV is an advanced, stylish wireless handset designed for business of all sizes. Its new sleek design makes it more convenient to carry around and use. With the W78HV, you can enjoy crystal-clear audio and never miss a call.

The W78HV also provides maximum freedom and flexibility. You can choose a Bluetooth headset or wired headset with built-in Bluetooth 5.1 and a 3.5 mm headset jack. Thanks to the vibration alert you are guaranteed not to miss any call, even in noisy situations.

Combining the benefits of wireless communication with the rich business features of One Talk, the cordless handset empowers users with the flexibility of wireless communication, excellent speech quality, and safe communications with the base station enabled by reliable DECT encryption technology. The bright graphical color display provides you with a comfortable and intuitive user experience for all day long.
